U. W. D. New. 13, 8

The information contained in this booklet is offered in such convenient form, that we hope our yachting friends will appreciate our efforts to give them something practical and useful.

We will send a copy free of charge, to any yachtsman, (who has been overlooked in our distribution), upon receipt of request, giving us the name of the yacht, owner, and its home port.

EDWARD SMITH & CO. MARINE LACQUER.

A preparation for protecting ship bottoms and other parts exposed to the action of salt water.

Any color of bronze can be added to give the desired anti-fouling qualities.

Copper bronze, added in the proportion of about 10 to 12 oz. per quart of Lacquer, and well stirred at frequent intervals will give a brilliant and smooth surface, protecting the ship bottom as well as adding to its speeding properties.

SMITH'S MARINE LACQUER dries hard and glossy, and gives an unusually smooth surface.

It is thin and spreads well, thus giving a large covering capacity.

The ship bottom should be well cleaned before applying, as the Lacquer will thus wear longer and finish smoother.

In preparing **SMITH'S MARINE LACQUER**, we think we have secured more lasting and better wearing properties than any other similar compound, and have also avoided the weak points of similar preparations.

We strongly recommend it for trial by the yachtsmen who take pride in having their yachts in unusually first-class condition.

EDWARD SMITH & CO.'S SPAR COATING is known wherever spars are used—and recognized by the yacht owners and prominent builders as the best Varnish which can be secured for that purpose, because of its salt-water resisting properties and its long life and durability under the most exacting conditions.

Our various special Varnishes for the inside yacht woodwork are especially popular.

All the cup-defending yachts, including the new Defender, now upholding American custodianship of the prize, have been finished with one or more of our Varnishes.

We think about fifty per cent. of all the steam and sail yachts, whose names appear on this list, are using Edw. Smith & Co.'s Varnishes in one or more places.

We do not cater to the cheaper Varnish trade, as all our goods are specially prepared from the finest obtainable materials—a special Varnish for each purpose.

We call particular attention to the necessity of plainly and distinctly asking for and then insisting upon getting goods properly labeled with our name and trade mark, if the customer wishes to use our brands.

We regret to say that we have known of cases when cheaper goods have been substituted with the representation that they were just as good as **SMITH'S**.

Our various Price Lists will be sent free upon request.

Any yachtsman or builder, or any other person using any kind of high grade varnish will find that we have some specially suitable for his purpose.

Our goods are particularly prominent for their quality and durability, as they possess wearing properties which are rarely found in ordinary brands of varnishes.

House owners, to whom quality is more important than cheapness in price, and others interested in obtaining the finest quality of varnishes, are invited to correspond with us for information which will readily demonstrate the reasons why our special varnishes are so largely used where durability is of prime importance.

As we have been making varnish since 1827, we have accumulated much valuable experience which we will be pleased to place at the disposal of anyone having trouble with varnish either before or after its use.

We make a number of specialties for different purposes, among which are the following:—

Yacht Spars, Decks, Bottoms and Inside Wood-work.

Carriages and Coaches.

Fine Cabinet work.

House Varnishes—inside and outside.

Water Works, Bridges and Structural Steel Work.

Bridge Cables, etc.

EDWARD SMITH & CO.,

45 Broadway, New York.

NOTICE:—For the purpose of introducing our special varnishes to the actual consumer, we will send a single sample quart of any kind to any part of the United States, Canada or Great Britain upon receipt of one dollar, prepaying delivery charges to destination.

Our goods can be obtained from any dealer, but where there is any difficulty in getting them, we will be pleased to ship direct upon receipt of order.

THE WHITESTONE HOLLOW SPAR AND BOAT CO.

Successors to

THE SPALDING ST. LAWRENCE BOAT CO.

THE FRASER HOLLOW SPAR.

WHITESTONE LANDING,

LONG ISLAND, N. Y., U. S. A.

MESSRS. EDWARD SMITH & Co.,

45 BROADWAY, N. Y.

DEAR SIRs:—

I take pleasure in advising you that I have for several years past used your Spar Coating exclusively on the Fraser Hollow Spars. It is a matter of importance that these spars should receive the best possible varnish finish, and I have found nothing which, in my opinion, equals your spar coating for the purpose. I certainly expect to continue using same.

Yours truly,

J. G. FRASER, MGR.

HERRESHOFF MANUFACTURING COMPANY Say:—

“We have been using your Varnishes for a number of years and they have given us great satisfaction, producing excellent finish and are very durable. We continue the use of your Varnishes believing them to be the best obtainable for our purposes.”

BATH IRON WORKS, LIMITED, Say:—

"Your Spar Coating has been used by us on a greater part of the vessels that have been constructed at our works, and we find the goods first-class in every respect.

They have given perfect satisfaction after being subjected to every climate."

INTERNATIONAL NAVIGATION COMPANY Say:—

"We have been using your Spar Coating for more than two years.

It is the best varnish we have used.

It goes further, wears longer, and looks better after application than any other of which we have knowledge."

Yours truly,

J. W. SHACKFORD,

MARINE SUPERINTENDENT.

WALTER COLEMAN & SONS Say:—

"Your Spar Coating is, in our opinion, the very best for our work.

Our trade calls for Smith's Spar Coating almost invariably.

We use it on all of our 'cup defender' work."

G. M. SMITH—Boat Builder—Patchogue, N. Y. Says:—

"I have used your Spar Coating since 1891, and believe it to be the best outside varnish on the market."

HOW TO DISTINGUISH THE TRANSATLANTIC LINERS.

(Name.)	(Funnel Marks.)
Allan	Red, narrow black band in centre of red, white band under black top.
American	Black, white band near top.
(Phila. Service)	Black, white band near top.
Anchor	Plain black.
Atlantic Transport	Red, black top.
Beaver	Black, two white bands, black top.
Cunard	Red, two narrow black bands, black top.
Dominion	Red, white band; red band, black top.
Fabre ..	Black.
Hamburg-American	Buff (express service) black (regular service).
Nav. Gen. Italiana.....	Black; white and black.
Holland-American	Black, white band, green borders.
North German Lloyd ...	All cream.
Red Star.....	Cream, black top and five point red star.
Transatlantique	Red, with black top.
Thingvalla	Cream, white band; seven point blue stars, black top.
White Star	Cream; black top.
Wilson Line	Red; black top.

DIFFERENCE IN TIME.

When it is 12 o'clock noon at New York it is at

Antwerp	5.13 p. m.
Berlin	5.49 p. m.
Bremen.....	5.31 p. m.
Constantinople	6.53 p. m.
Copenhagen	5.46 p. m.
Dublin	4.35 p. m.
Genoa	5.30 p. m.
Glasgow.....	4.43 p. m.
Gibraltar	4.40 p. m.
Hamburg	5.35 p. m.
London	5.00 p. m.
Madrid.....	4.42 p. m.
Milan	5.37 p. m.
Moscow.....	7.25 p. m.
Paris	5.05 p. m.
Rome	5.45 p. m.
Rotterdam	5.18 p. m.
St. Petersburg	6.57 p. m.
Stockholm.....	6.08 p. m.
Venice.....	5.48 p. m.
Vienna	6.01 p. m.

Travelling from east to west, the day averages,
on a fast Atlantic Liner, about 24 hours 48 minutes.

SOME NAUTICAL TERMS YOU OFTEN HEAR— AND THEIR MEANING.

AFT (ABAFT).....Toward the stern or end of the vessel.

FORWARDToward the bow or front of the vessel.

STARBOARDThe right-hand side of the ship looking forward.

PORTThe left-hand side of the ship looking forward, also state-room window.

WEATHER-SIDEThe side of the ship toward the wind.

LEE-SIDEThe side away from the wind.

FORE-AND-AFTLengthwise with the ship.

THWARTSHIPCrosswise to the ship.

MID-SHIPToward the middle or waist of the ship equi-distance from the bow and stern.

POOP.....A raised deck toward the stern.

FO'CASTLEThe "fore-castle"—seaman's quarters.

GLORYHOLE.....Steward's quarters.

GALLEY.....Kitchen.

ALLEYWAYPassageway.

BULKHEADPartition.

NAUTICAL TERMS—Continued.

- SCUPPER Channel for water.
- ROLLING Motion of a ship from side to side.
- PITCHING..... Plunging of a ship's head into the sea, causing up-and-down movement.
- SCENDING A mixture of rolling and pitching.
- LATITUDE Distance directly north or south of the Equator.
- LONGITUDE Distance directly east or west of the Meridian of Greenwich.
- ALTITUDE Angular-distance of the pole above the orizon.
- SEXTANT..... An instrument for measuring a required angle by the manipulation of mirrors.
- DEAD-RECKONING.. A method of finding a ship's approximate position from the course steered and distance run.
- EQUINOX The time of the year when the days and nights are of equal length—about the 21st of March and the 21st of September.
- NAUTICAL MILE
OR KNOT..... The sixteenth part of a degree. 267 yards more than an English land mile. 6 knots may be roughly taken as equal to 7 English land miles.

NAUTICAL TERMS—Continued.

CHART	A sea map.
FATHOM	Six feet.
SOUNDINGS	Depth of water in fathoms, or feet, at low water or Spring tides.
DRIFT CURRENT ...	Movement of the surface of the sea.
FLOOD-TIDE.....	Rising tide.
EBB-TIDE.....	Falling tide.
SPRING-TIDE.....	High tide caused by the sun and moon being on the meridian to- gether, or in opposition.
NEAP-TIDE	Low tide caused by the sun and moon being furthest apart.
HEIGHT OF TIDE....	Difference between level of high water and that of low water.
AGE OF THE TIDE ..	Difference of time between the moon's transit and appearance of the tide.
DEADLIGHT	A covering of wood or metal for a port, used in severe weather.
BOWER ANCHOR ...	A working anchor, kept ready for immediate use.
SHEET ANCHOR.....	A spare anchor, reserved for occa- sions of urgency.
LOG	An instrument towed by the vessel, by which the distance sailed is ascertained.
LOG (LOG-BOOK) ...	Official daily record of the ship's proceedings.

The following table gives much interesting and useful information about various private steam and sail yachts of fifty feet and over in length.

The list is arranged alphabetically by **YACHT NAME**, and includes the following information:—

- (a) Classification as to steam or sail.
- (b) The Yacht name.
- (c) The length.
- (d) The name of the owner or owners.
- (e) The Home Port.
- (f) The number of the club or clubs to which the yacht owner belongs.

The **name** of a **club** can be found by consulting either the list of "Club Flags," shown in colors, or the Club Index shown on page 40.
